

#### ARTIST BIO FOR JUDY LEWIS

Judy is an Australian artist who lives in Brisbane, Queensland. She is a wildlife and portrait artist who began her artistic journey in 1990 and is largely self taught.

Initially an acrylic artist, in 2012 after some health issues she discovered graphite and a whole new world was awakened. Spending the next 5 years mainly concentrating on portraiture.

In 2017 while preparing for her first solo exhibition her focus shifted to her first love of wildlife in pastel and graphite. During this time she tried her hand at scratchboard for the first time and a new passion was born. Scratchboard has become her focus with her art. Allowing all the contrast of black and white while also being able to add colour is she wishes. The fine detail able to be applied in this medium has her now addicted to this exciting medium.

In 2019 Judy became a Signature member of the International Scratchboard Artist, an achievement she is extremely proud of. She feels honoured to be part of this wonderful Exhibition amongst artists she greatly admires
